

IM Holiday Project

During the first week of December we learned about different holidays around the world and how people celebrate those holidays and as a class we choose to study Kwanzaa, Las Posadas, Hanukkah, and Christmas. We have researched and found facts that will help us better understand how those holidays are celebrate in their countries. Please help your child complete a project (chosen from one below) which will be due on their show and tell day next week.

Project Ideas:

Book

Students will create a book that lists 4-5 facts about the holiday they choose. The book should include pictures (hand drawn or printed) of the holiday and handwritten sentences to go along with it.

Song

Student will create a song that represents a holiday. The song can follow the same tune as any nursery rhyme or popular song. The song should be about 2-3 stanzas and include holiday facts

Holiday Crafts

Students will choose a holiday and create a craft that represents the Holiday they choose. Students are expected to tell us about the craft they choose and how it represents the holiday.

Mobile

Students will create a mobile with the holiday at the top and pictures of things that represent the holiday hanging from it along with sentences about how those objects represent the holiday. Be sure to include at least 4-5 things.
